Who are we?

Kuwait Association of Medical Laboratories

It is a public benefit association that was officially established by Ministry of Social Affairs Decree No. 19/2023 .

To be the official and professional representative for workers in this vital sector in Kuwait.

Why become a member?

- ✓ **Your voice is heard:** your opinion reaches and affects.
- ✓ **Development Opportunities:** Workshops, Lectures, and experimental procedures.
- ✓ **Network:** Get to know your colleagues in the field and exchange of experiences.
- ✓ **Special privileges:** discounts, events, and certified courses.

**Your membership =
your voice + your strength**

Objectives of the Association

1. Representing workers and defending their professional rights.
2. Raising the professional level and keeping pace with scientific advancements.
3. Highlighting the status of the profession in the health system.
4. Maintaining the honor and ethics of the profession.
5. Building bridges of cooperation and partnerships.
6. Organizing scientific and social events.

Achievements

Training Courses and Professional Development:

Providing specialized training programs in the fields of medical laboratories and raising professional efficiency.

Media Highlighting and Community Awareness:

Implementing campaigns, media coverage and awareness content to highlight the role of laboratory technicians and enhance health awareness in society.

Community meetings and professional participation:

Organizing and participating in scientific, awareness and community forums targeting students, graduates and the community, in addition to attending conferences and health events.

Benefits for members:

Providing exclusive discounts and offers for members from various entities and companies.
